**SECTION 4. FIRST AID MEASURES** 

## 4.1. Description of first aid measures:

### Inhalation:

In case of inhalation poisoning symptoms (cough, dyspnea, dizziness) move the injured to fresh air.

## Skin contact:

If product comes in contact with the skin, immediately remove all contaminated clothing and flush exposed area with large amount of water. In case of skin changes or burns, get medical attention.

## Eye contact:

Flush eyes with running water (at least 15 minutes) while keeping eyelids open. Get medical attention.

#### Ingestion:

DO NOT induce vomiting. Drink a lot of fresh water, keep calm and immediately get medical attention.

## 4.2. Most important symptoms and effects, both acute and delayed:

#### Inhalation:

In case of long-time exposure to product's vapours, it may irritate upper respiratory tract and it may also include feelings of dizziness and drowsiness. May cause death.

Skin:

Irritant to skin.

Eyes: Irritant to eyes.

Ingestion: May cause death.

## 4.3. Indication of any immediate medical attention and special treatment needed:

Get medical attention.

Fresh water and eye-wash preparations must be available on the worksite.

SECTION 5. FIREFIGHTING MEASURES

### 5.1. Extinguishing media:

**Suitable extinguishing media:** Foam, extinguishing powder, sand, carbon dioxide, atomized water.

**Unsuitable extinguishing media:** Water jet.

**5.2. Special hazards arising from the substance or mixture:** Easily flammable liquid and vapours.

# 5.3. Advice for firefighters:

Firefighters should wear self-contained breathing apparatus and full protective clothing. In case of fire, warn the people nearby and evacuate unprotected and untrained personnel from hazard area. Notify relevant emergency services. If possible, remove the containers away from the influence of fire and high temperature. Water may be used to keep fire-exposed containers cool until fire is out. The after burning residues should be removed.

# Safety Data Sheet

# SECTION 6. ACCIDENTAL RELEASE MEASURES 6.1. Personal precautions, protective equipment and emergency procedures: For non-emergency personnel: Protective chemical-proof gloves (0.11 mm thick), self-contained breathing apparatus, safety glasses. For emergency responders: Protective clothes, protective chemical-proof gloves (0.11 mm thick), self-contained breathing apparatus, safety glasses. 6.2. Environmental precautions: Avoid discharge into drains, watercourses or onto the ground. 6.3. Methods and material for containment and cleaning up: In case of unexpected release of the substance into the environment, inform appropriate services about the emergency and remove any sources of ignition. Prevent spills from entering sewers, surface water or groundwater. If it is possible, confine and contain the spill by closing the flow of the liquid, plug the damaged container and put it into leakproof wrapping. For a larger spill, make a dike around the outside edges of the spill and use absorbent materials (sand, sawdust, minced limestone). Store clean-up materials for disposal as hazardous waste. Decontaminate polluted area with water. 6.4. Reference to other sections: See section 8 and 13.

**SECTION 7. HANDLING AND STORAGE** 

## 7.1. Precautions for safe handling:

Be careful when working with this product. Use personal protection recommended in section 8 Mix only with water. DO NOT mix with any other chemical substances. People with skin allergy or respiratory system problems should not have contact with this product. Avoid risk – read this instruction sheet carefully before using the product. After usage, keep container tightly closed and keep it away from unauthorized people. Use only adequate ventilation to avoid inhalation poisoning.

# 7.2. Conditions for safe storage, including any incompatibilities:

Store in a tightly closed, original plastic container. Store this product in a dry environment that will be maintained at 5°C - 30°C temperature with a good ventilation system and an easily washable, nonabsorbable alkaline resistant floor. DO NOT expose the product to sunlight and keep it away from heat, sparks, flame and other sources of ignition.

7.3. Specific end use(s):

No data available.

# **SECTION 8. EXPOSURE CONTROLS/ PERSONAL PROTECTION**

## 8.1. Control parameters:

Please check any national occupational exposure limit values in your country.

**SECTION 11. TOXICOLOGICAL INFORMATION** 

### **10.1 Reactivity:** Easily flammable liquid.

- **10.2 Chemical stability:** Stable under recommended storage conditions (see section 7).
- **10.3 Possibility of hazardous reactions:** Not applicable.
- **10.4 Conditions to avoid:** Avoid heavily warmed rooms without ventilation and long-term exposure to sunlight. Avoid any source of ignition.
- **10.5 Incompatible materials:** None.

## 12.4. Mobility in soil

Product is water soluble and may sink into groundwater systems.

#### 12.5. Results of PBT and vPvB assessment:

This substance/mixture does not meet the PBT and vPvB criteria of REACH, annex XIII.

#### 12.6. Other adverse effects:

No data available.

# **SECTION 13. DISPOSAL CONSIDERATIONS**

#### **RESIDUES AND WASTES:**

DO NOT mix with other liquid wastes.

DO NOT empty into sewage system. Product should be totally used up according to its description.

If it's impossible to do so, dispose of this material and its container at hazardous or special waste collection point.

### 13.1. Waste treatment methods:

Contaminated containers should be completely emptied. Several times rinse the container promptly after emptying. Empty container can be stored in containers for collection of plastic packaging, or can be delivered to specialized company for recycling.

Disposal should be in accordance with the national/international regulations.

# **SECTION 16. OTHER INFORMATION**

Information above is based on current knowledge of product in its current form.

All data are presented in order to take into account safety requirements priority and not to guarantee special properties of the product. If product usage conditions are not under manufacturer control, responsibility for safe use lies with the person that uses them. The employer is obliged to inform all employees, who have contact with the product, about the risk and safety measures specified in the data sheet. Safety data presented above were prepared based on safety characteristics of substances used by the producer to compose the product and based on regulations for handling dangerous substances and their preparation. Because of the flammable properties of the mixture, classification of chemical mixture was based on flash point and flame sustainability tests. Rest of the classification was done with calculation methods, based on the content of hazardous ingredients in the mixture.
